Teaming Up to Select Tough Urban Trees for Florida
Deborah R. Hilbert, Andrew K. Koeser, Michael Andreu, Gail Hansen, Robert Northrop, Lara Roman

Problem

Monocultures
Less resilient

dallastreesurgeons.com/oak-wilt/

Goals
1. To create a model for selecting and testing underutilized trees through interdisciplinary partnerships
2. To test these 5 underutilized tree species' survival and growth in central Florida urban settings

Methods & Preliminary Results

- Identified underutilized tree species
- Examined future climate predictions
- Developed a list of tree traits
- ...
