**Agenda:** Measuring the Outcomes and Impacts of UF/IFAS Urban Water Conservation and Quality Extension Programming: 2018-19 Update
(In-Service Training 2018 – 2019: IST #31602)

Register at [pdec.ifas.ufl.edu](http://pdec.ifas.ufl.edu)

**Instructors:** Laura Warner, Lisa Krimsky, Lincoln Zotarelli

**Webinar eLearning**

**Audience:** The intended audience is Extension professionals who conduct urban water conservation and quality programming statewide.

**Schedule:** January 24th, 2019, 10:00am – 11:00am
- Introduction of participants, speakers, and technology
- Opening remarks
- Overview of initiative #2
- Overview of the research and resources available to support water conservation/quality reporting
- Progress on the roadmap to date
- Discussion

**About**
The purpose of this in-service training is to update participants on the statewide progress UF/IFAS has made toward the urban water conservation/quality elements of the Extension Roadmap and provide opportunities to contribute the project going forward.

Participants will: Gain a better understanding of how Initiative 2 is structured / Increase ability to locate evaluation resources / Increase understanding of the statewide progress made on the urban water conservation/quality elements of the UF/IFAS Extension Roadmap / Improve understanding of the relationship between individual contributions and statewide accountability.
